PROFILE

Software engineer and technical trainer with 5+ years of experience across full-stack web development, technical education and people management. I build web applications and AI-powered tools with React, Python/Django, PHP/Laravel and SQL databases, and have contributed to 10+ live projects for clients. I have trained professional cohorts in web development and graphic design, and currently lead recruitment and onboarding as HR Manager at Comet Tech. 1st Runner-Up at Innovalte Season 2 for MeetFlow, an AI tool that carries meetings through to execution.

EXPERIENCE

HR Manager

JUL 2026 – PRESENT

Comet Tech | Karachi | Full-time

- Lead people operations, owning the hiring cycle from job postings and CV screening to interviews and offers.
- Run onboarding for new hires so they settle into their teams and become productive quickly.
- Work with team leads to understand staffing needs and plan hiring around project requirements.
- Support a workplace culture focused on growth, communication and retaining good talent.

Full Stack Developer

FEB 2024 – PRESENT

Mini Solution | Remote

- Design, build and deploy client websites and web applications, from first wireframe to launch.
- Develop and customise WordPress sites, including themes and plugins tailored to each client.
- Build responsive front-ends and back-end features with PHP/Laravel, Python and SQL databases.
- Work directly with clients on requirements, revisions and post-launch updates.

Web Development Instructor

JAN 2026 – JUL 2026

BBSHRRDB Training Program, ZAS College of Arts & Design | Karachi

- Delivered the front-end track covering HTML, CSS and JavaScript, from page structure to interactive interfaces.
- Led the back-end track with Python, Django and PostgreSQL, covering models, views, templates and database design.
- Guided trainees through hands-on labs and complete web projects, and reviewed their code and progress.

Senior Web & Graphic Design Instructor

JUL 2025 – JUL 2026

ZAS College of Arts & Design | Karachi

- Conducted web development courses in HTML, CSS, Bootstrap, PHP, Laravel, Python, Django, MySQL and PostgreSQL.
- Trained students in graphic and UI design with Adobe Photoshop, Adobe Illustrator, Figma and Canva.
- Planned course outlines and practical assignments, assessed student work and mentored final portfolios.

Web Instructor

JUL 2025

Government Training Project (YEEEP) | Karachi

- Delivered web design training to young learners as part of a government skills programme.

Primary & Computer Teacher

2021 – 2022

MRA Coaching Academy | Karachi

- Instructed primary-level students in core subjects and computer fundamentals.
